

## To whom it may concern

Certified that Shatabdi Public School, Gaya has five pucca buildings in its campus. The buildings have sufficient number of spacious & airy class rooms, having both side windows for fresh air and light with wide door. The staircases in each building are as per norms & need. All the five buildings in the campus are structurally safe, sound and well maintained. There are four water storage tanks in the School campus.

I personally visited & inspected the campus of Shatabdi Public School, Gaya on 29-10-2018.
